Hall Tree

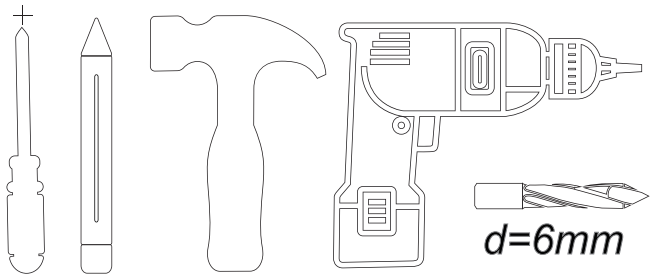

Assembly Information

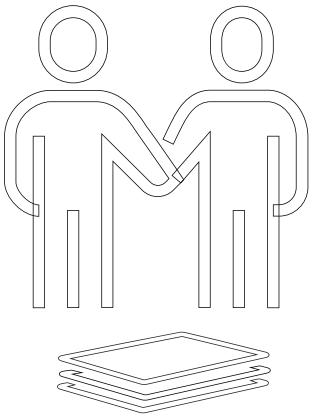

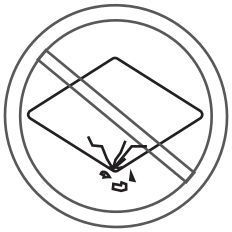

ATTENTION

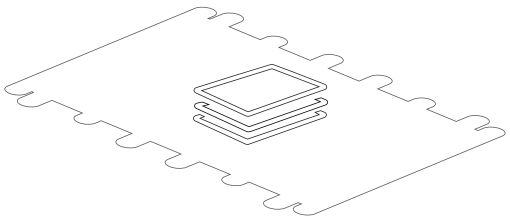

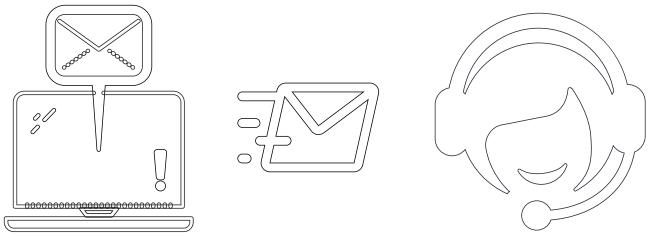

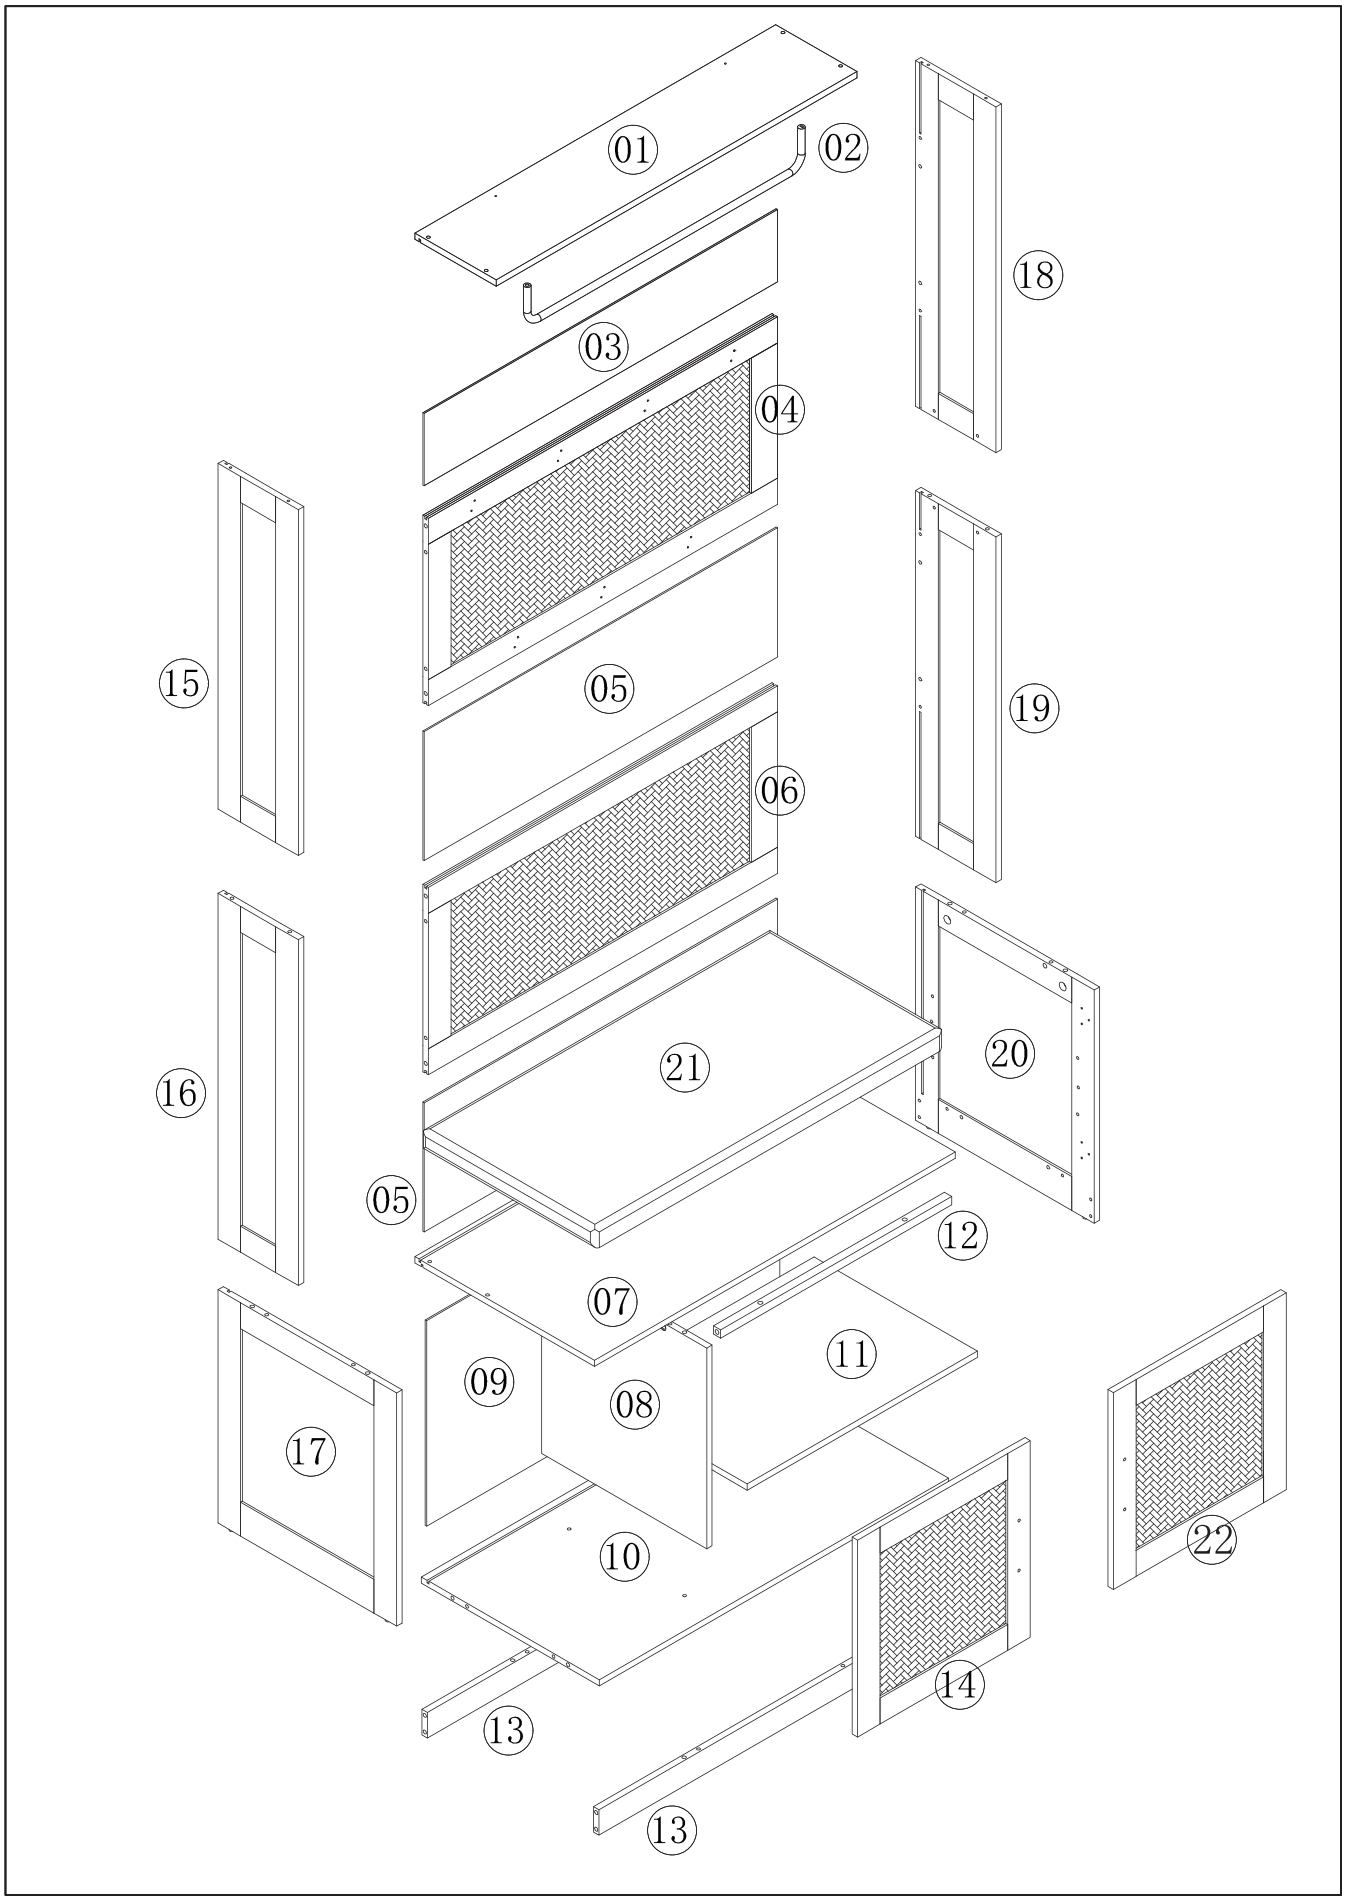

⚠ WARNING !

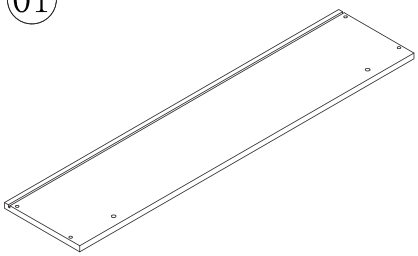

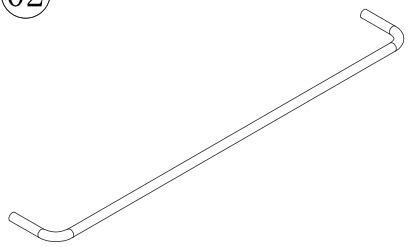

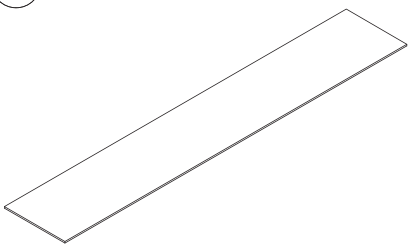

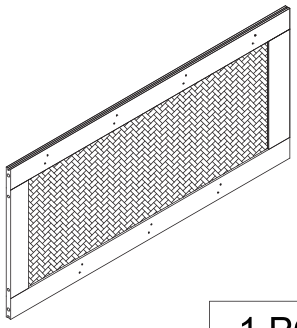

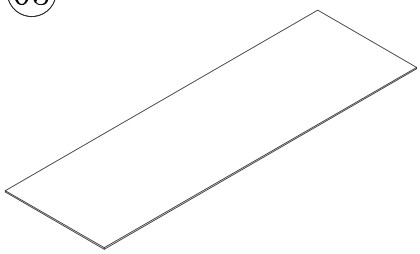

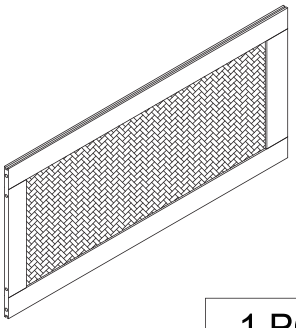

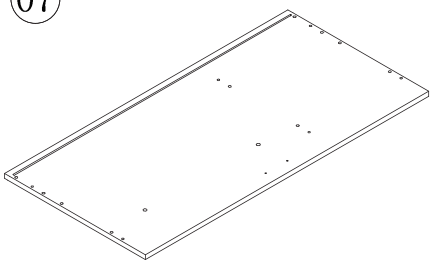

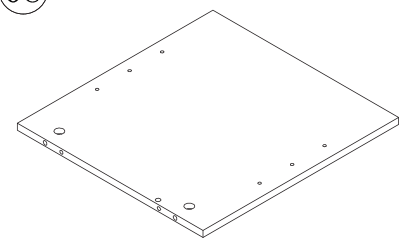

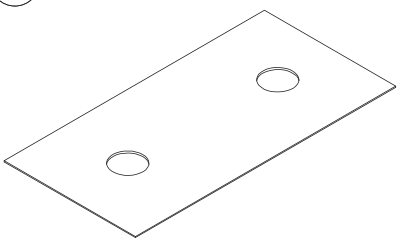

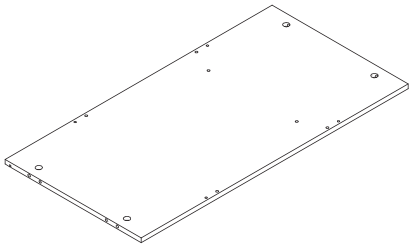

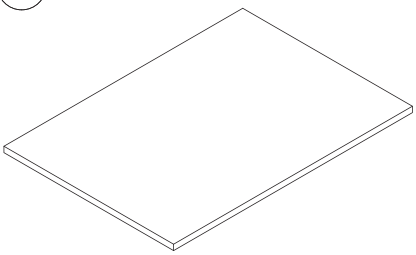

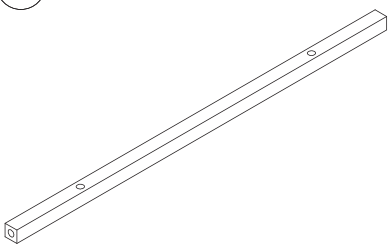

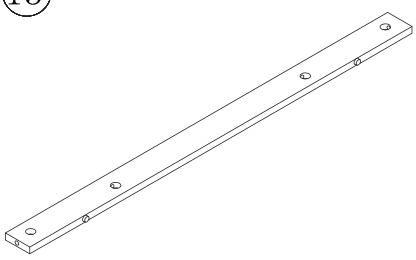

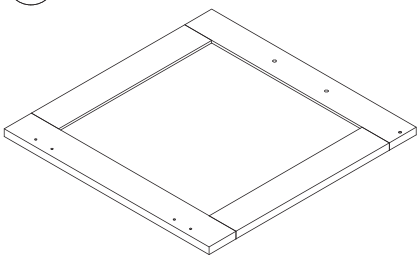

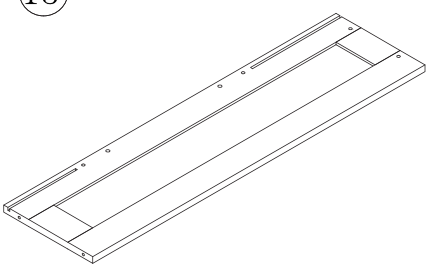

When using this product, basic safety precautions should always be followed, including the following:

1. Read Instructions Carefully: Ensure you have read and understood all assembly and care instructions before using the furniture.
2. Proper Assembly Required: Improper assembly can lead to damage or injury. Follow the provided instructions closely. Attention! Adults only. Do not allow children to disassemble or assemble the product.
3. Use Only as Intended: Use the furniture only for its intended purpose. Misuse can lead to damage or injury. Do not stand or climb on the product.
4. Avoid Overloading: Do not exceed the recommended weight limits for shelves, drawers, or seating. Overloading can cause tipping or structural failure.
5. Keep Away from Fire: Keep the furniture away from open flames or direct heat sources to prevent fire hazards.
6. Supervise Children: Do not allow children to climb on or play with the furniture. This can lead to tipping and injury.
7. Regular Maintenance: Check the furniture regularly for loose screws or parts. Tighten or replace as needed to ensure safety.
8. Handle with Care: When moving furniture, lift it rather than dragging to prevent damage to the furniture and flooring.
9. Proper Disposal: Dispose of packing materials properly to avoid hazards. Store packaging materials, plastic bags, and small parts out of reach and sight of children to prevent accidental ingestion or choking.

STEP 28

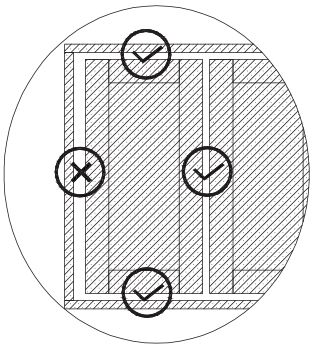

After installing the cabinet doors, close them and check the door seams and gaps. You may encounter uneven gaps; please adjust the door alignment according to the following instructions.

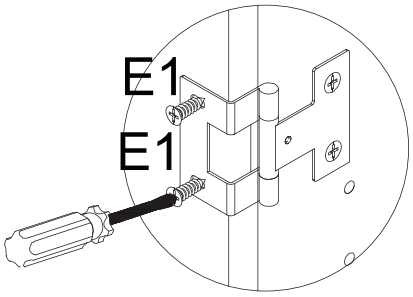

Assembly Steps(EN)

STEP 28-1 Left Door Panel Adjustment

1

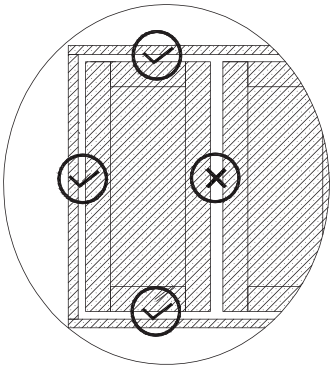

When the gap between the left door panel and the left side panel is too large:

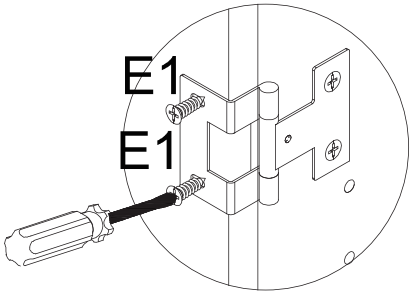

Loosen the E1 screws and move the left door panel to the right.

2

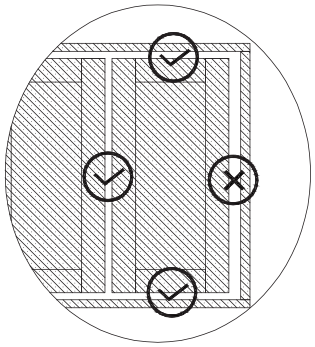

When the gap between the left door panel and the right door panel is too large:

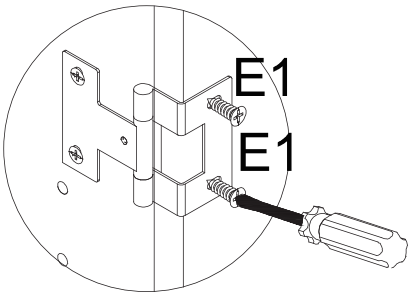

Loosen the E1 screws and move the left door panel to the left.

STEP 28-2 Right Door Panel Adjustment

1

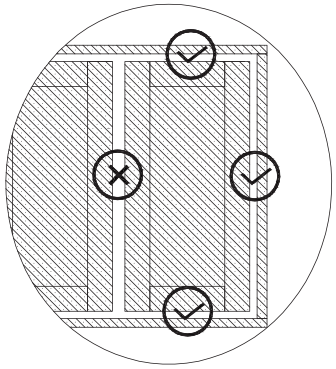

When the gap between the right door panel and the right side panel is too large:

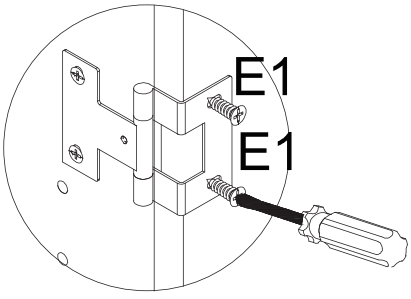

Loosen the E1 screws and move the right door panel to the left.

2

When the gap between the right door panel and the left door panel is too large:

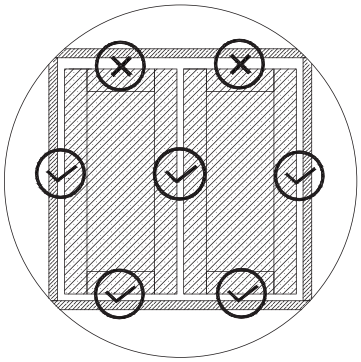

Loosen the E1 screws and move the right door panel to the right.

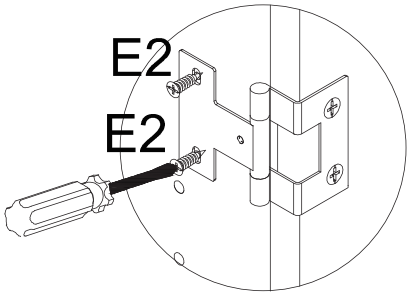

Assembly Steps(EN)

STEP 28-3 Door Panel Up / Down adjustment

1

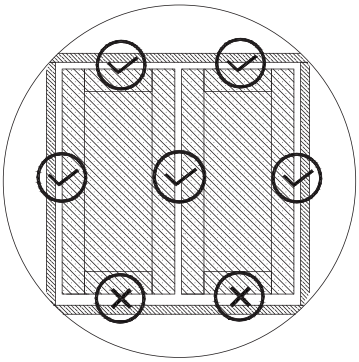

When the gap above the door panel is too large:

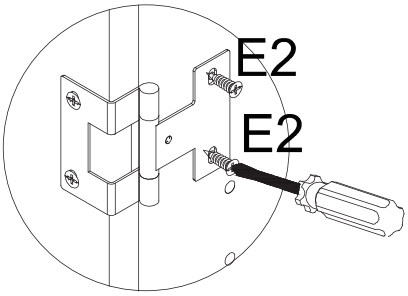

Loosen the E2 screws and move the door panel upward.

STEP 28-4 Door Panel Up / Down adjustment

2

When the gap below the door panel is too large:

Loosen the E2 screws and move the door panel downward.

STEP 29

	W x1PCS
	E x 4PCS

After adjusting the gaps on all sides of the left and right door panels, finally install the E3 screws.

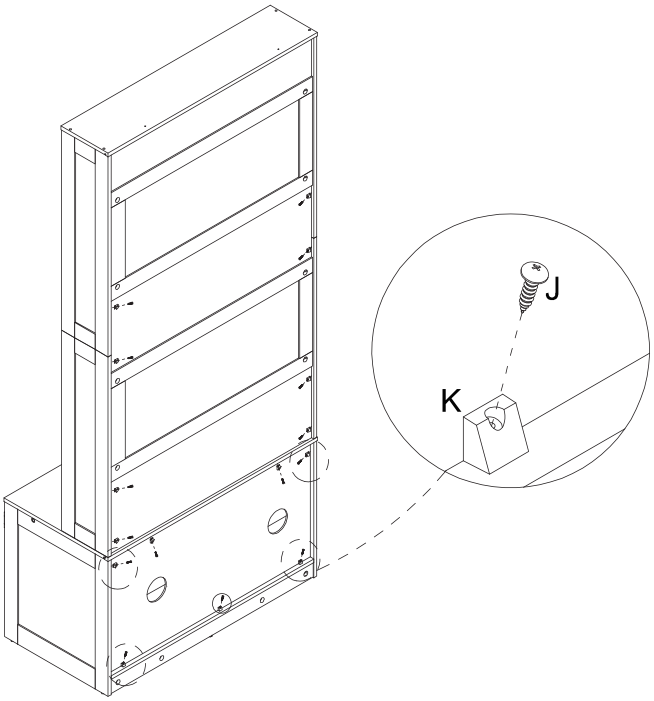

Assembly Steps(EN)

STEP 30

To make your hall tree more stable and secure, be sure to install the back panel clips.

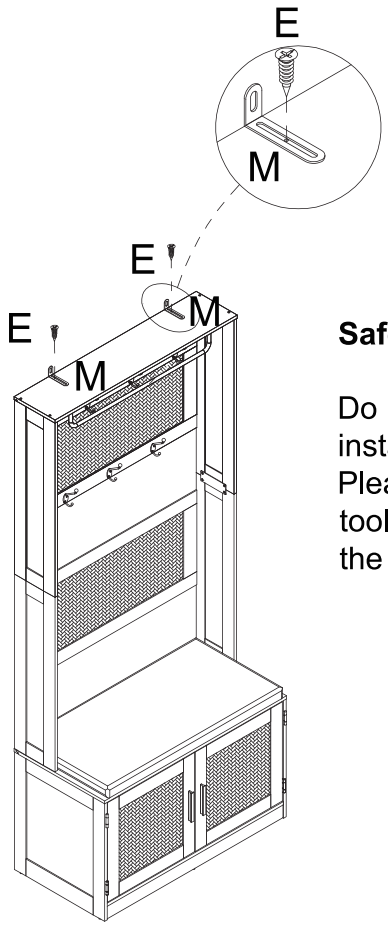

For this step, it's best to have two people: one person holds the hall tree steady in the front and aligns the gaps, while the other attaches the back panel clips.

Start with the clips on the dotted sections first; this will make the rest of the assembly easier and manageable by one person.

	W x 1PCS
	K x 15PCS
	J x 15PCS

STEP 31

Safety Tips:

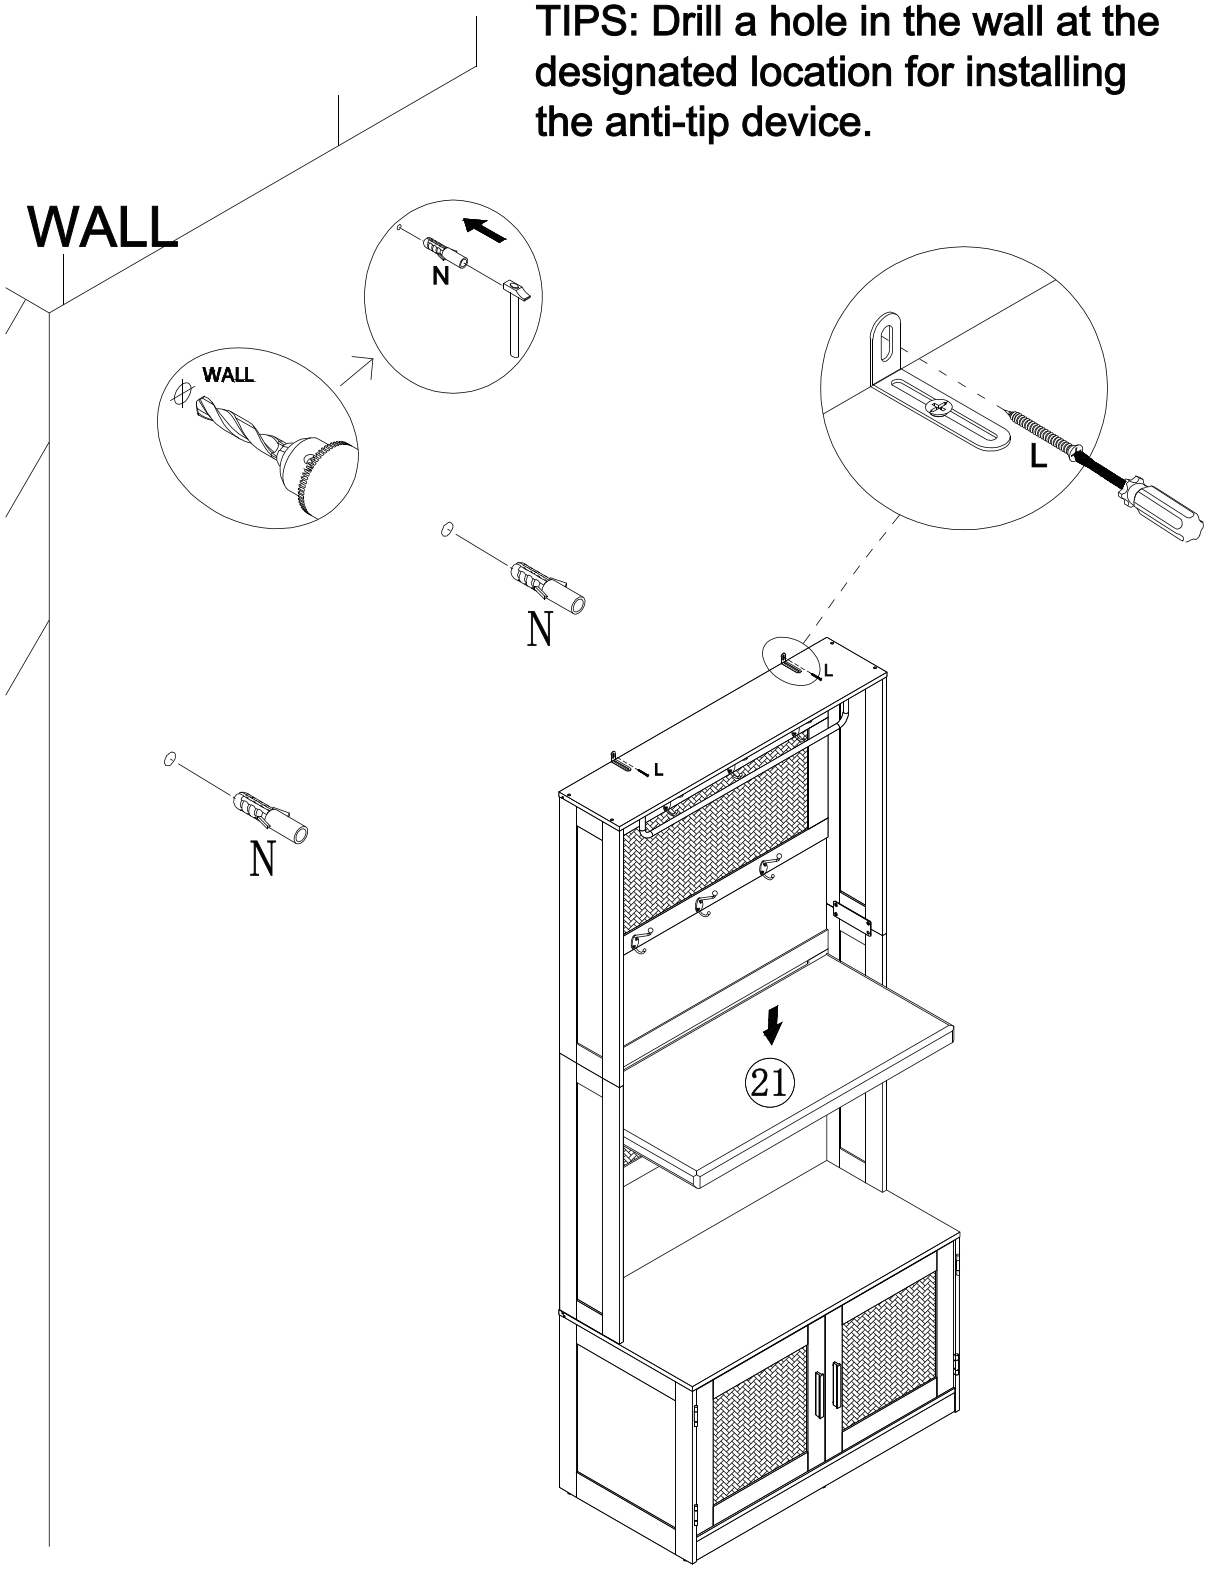

Do not step on the shoe bench while installing the anti-tip device.
Please use a ladder or other elevation tools to assist with the installation of the anti-tip device.

	M x 2PCS
	E x 2PCS
	W x1PCS

Assembly Steps(EN)

STEP 32

TIPS: Drill a hole in the wall at the designated location for installing the anti-tip device.

	W x1PCS
	N x2PCS
	L x 2PCS

⚠ ATTENTION: Households with children must install anti-tip devices.
