General Guidelines

1. Please read the following instructions carefully and use the product accordingly.
2. Please keep this manual and hand it over when you transfer the product.
3. This summary may not include every detail of all variations and considered steps.
Please contact us when further information and help are needed.

Warnings

1. Children are not allowed to assemble the product. During assembly, keep small parts out of the reach of children as they may be fatal if swallowed or inhaled.
2. Children are not allowed to climb or stand on the product to avoid personal injury caused by the toppling.
3. Keep plastic packing bags out of reach of children to avoid any potential danger, such as suffocation.
4. Avoid sharp objects and corrosive chemicals to prevent damage to the product or the user.
5. Please do not use the product if there is/are defective and/or missing part/s, as this can result in damage or injury.

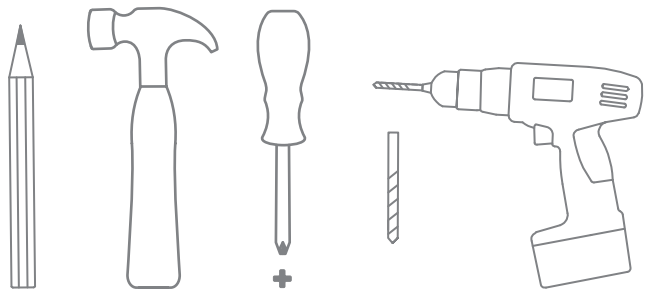

Notes

1. The item is only intended for indoor use. Personal injury and/or damage to the product may occur if products are used outside of their intended purposes and/or if products have been changed/modified from their original design. The product must be assembled and used in accordance with the provisions of the manual. The seller does not assume any responsibility or liability with respect to any damage caused by incorrect assembly or improper use.
2. Do not place it in a damp environment for extended periods of time to prevent mildew.
3. During assembly, first loosely align all screws with the corresponding pre-drilled holes and then tighten the screws one by one.
4. Periodically inspect screw tightness while the product is in use. If necessary, re-tighten to ensure structural integrity.
5. The total power of the connected electrical appliances shall not exceed the rated power of the socket.
6. When using, try to stretch the wires as much as possible and do not bundle them to avoid abnormal overheating.
7. When using, please fully insert the electrical plug and keep the wires in full contact to prevent electric shock accidents.
8. Prohibit the serial use of plug connections.
9. It is prohibited to use the plug in damp places and the product should be kept dry.
10. Do not cover the top of the product with any objects during use to prevent overheating and causing a fire.

ATTENTION

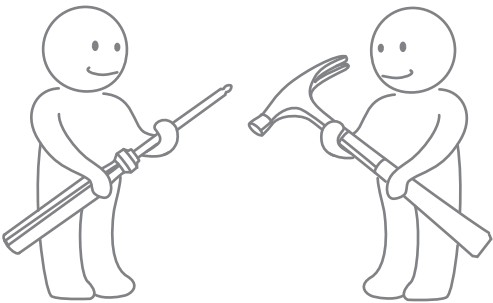

Tools

Having these tools ready will make your next installation much easier.

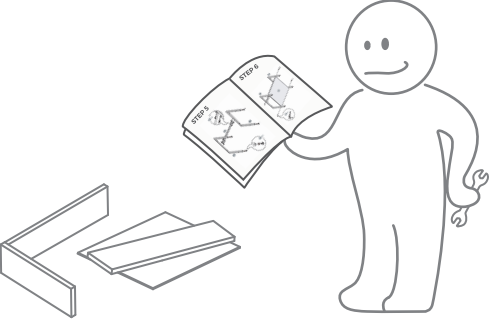

Team

Call your partner to experience the installation.

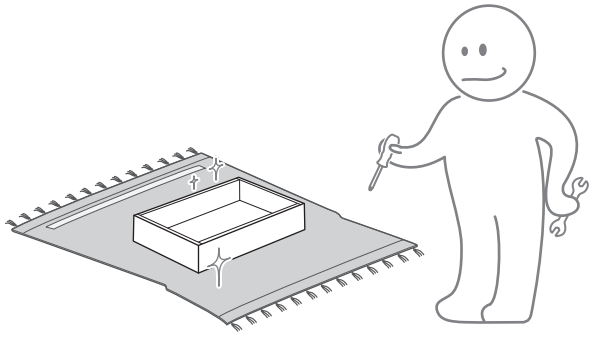

Read

Read the instructions with caution before operating and keep it properly

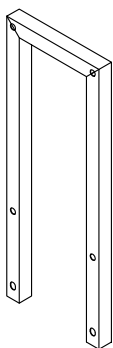

Protect

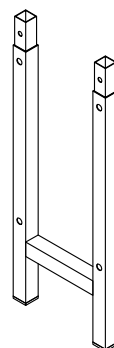

Assemble the item on a clean flat surface.

ATTENTION

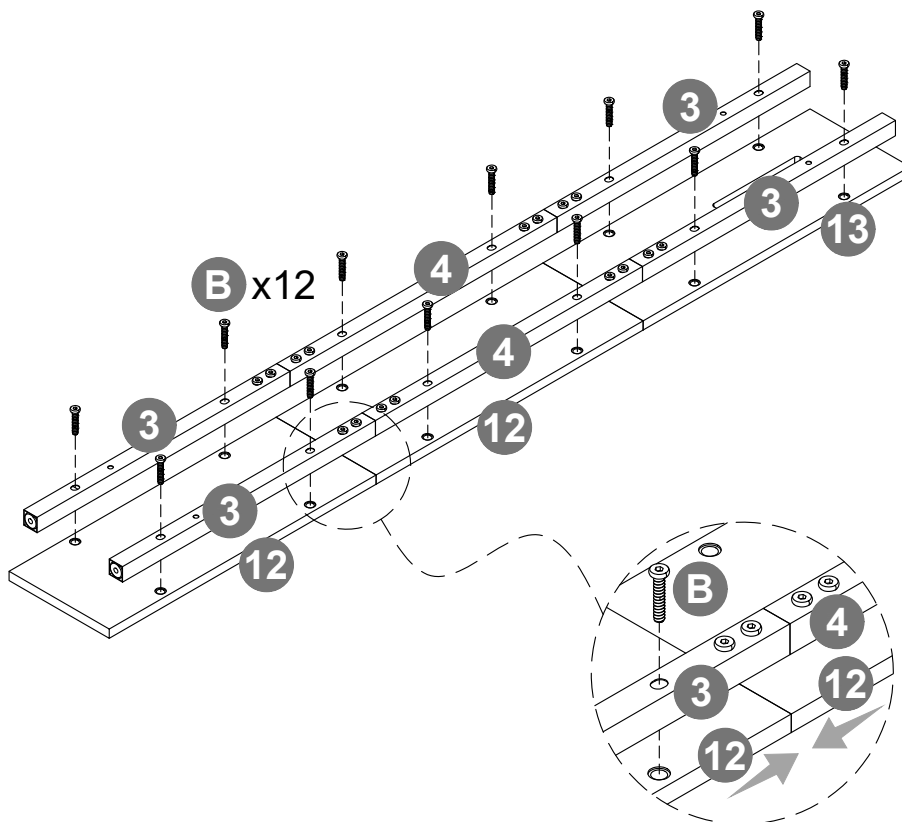

Step 1

- During installation, one of the No. 12 parts keeps the middle position unchanged, push the other No. 12 parts and 13 parts together as shown in step 1, and keep the three parts in a straight line, tightly fit, leaving no gap, convenient for later installation.

Step 2

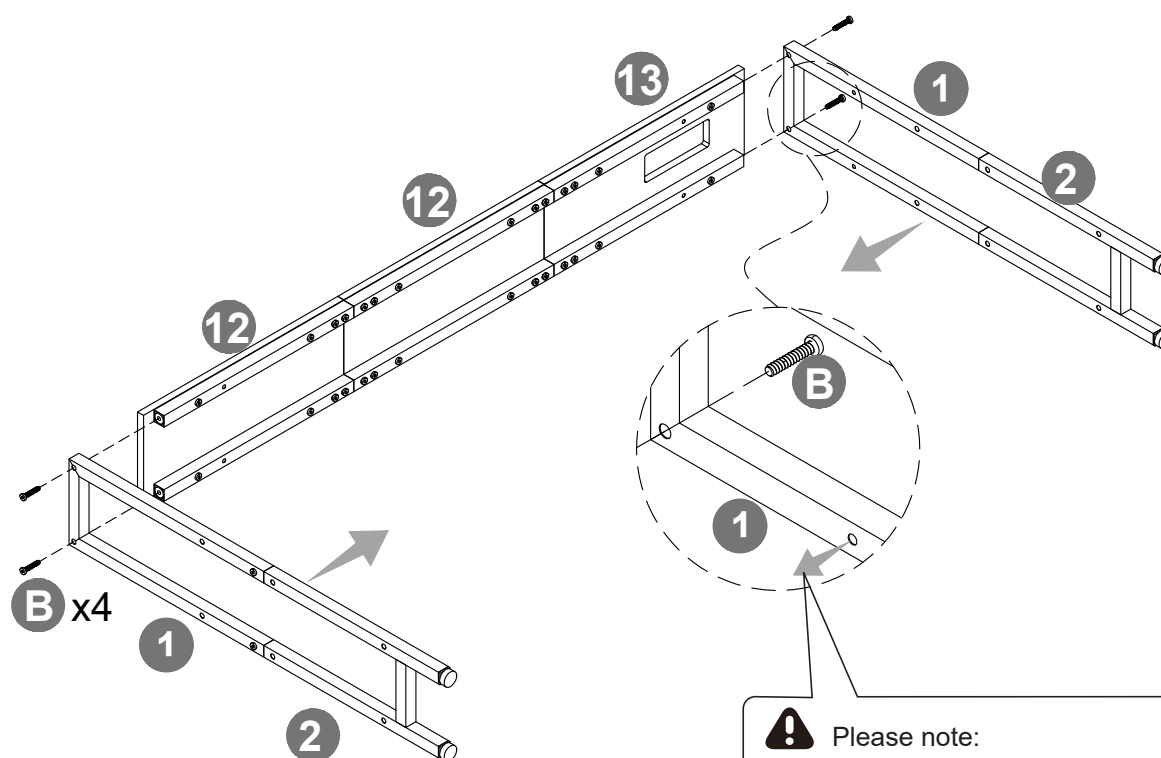

- In step 2, drill the 12 screws No. B and screw holes in advance, and then use a wrench to tighten the screws in turn.
- If the position of parts 12 and 13 is offset or there is a gap during the pre-drilling process, you can remove the pre-drilled screws, and then push parts 12 and 13 together according to Step 1 to keep them fit without gaps, and then drill holes with screws, and finally tighten the screws in turn.

ATTENTION
