02 Instructions Before Using

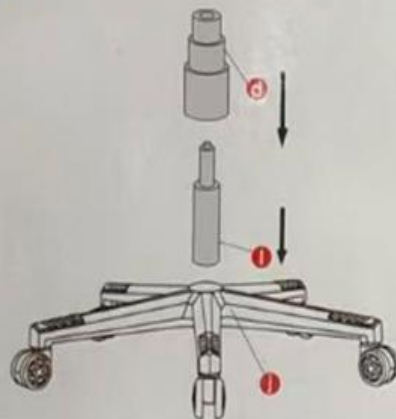

Chair of Installation

Please work on soft floor or put on soft mat on the floor
to avoid damaging the floor.

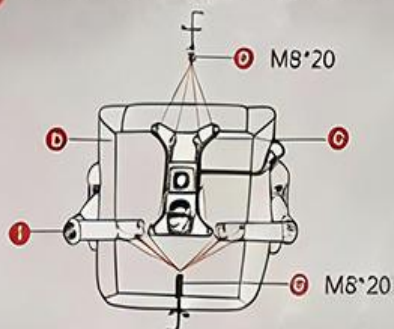

- 1** Place the base upside down and insert the casters into the bottom of the base.

- 2** Install gas lift and insert gas lift cover.

- 3** Install the mechanism and armrests.

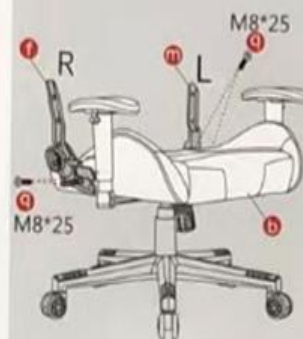

attention

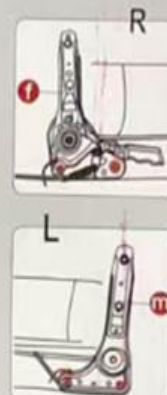

- 4** Place the seat on the gas lift.

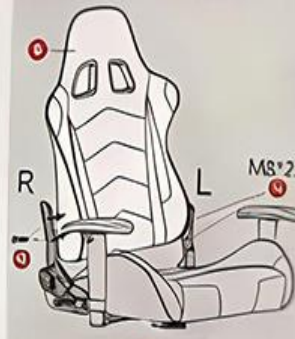

- 5** Align ① & ② with the holes of seat, then tighten screws.

Screw 50% tight

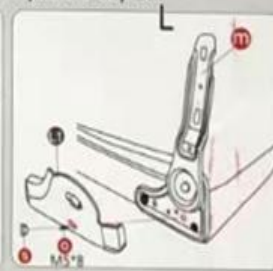

- 6** Align ① & ② with the holes of back, then tighten screws.

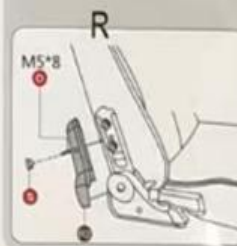

attention

- 7** Put M5*8 screw through the hole of ③ & ④ and tighten, then put the cap on.

- 8** Install ⑤ & ⑥ with M5*8 screw, then put the cap on.

- 9** Attach the headrest & lumbar pillow.

Functions

- A** Lift up the button on the side of the arm to adjust the arm height, raise or lower to the desired position.
- B** Lift the handle to recline and release it to any desired position. Rest on the back when resetting back to its normal position, otherwise the back may rebound rapidly.
- C** ① Pull upward on lever to achieve height adjustment.
② Push in to lock, pull out to unlock the tilt of the chair.
- D** Adjust the tilt angle with the tilt-tension knob underneath the seat. Turn it clockwise to decrease the angle, counterclockwise to increase the angle.

Frequently Asked Questions:

Q: Why do I hear a creaking sound after using it for a period of time?

A: The mechanism may not fit the seat base. If you hear a creaking sound, please remove the mechanism and reassemble again. Please ensure all the screws are securely tightened.
